

250kW string inverter

215-255kW three-phase series string inverter have Maximum 28 strings input, support "Y" type connection in DC side. Maximum string input current 15 A, support bifacial modules access.

The XGI 1500-250 and XGI 1500-200 feature SiC technology, high power and high efficiency that places them at the top end of the utility-scale string inverters in the market.

Guess you want to find it.

Kstar has launched KSG-250UH string inverter for large scale solar plants by 2020, among the world's largest power string inverters, helping customers to reduce the LCOE of solar ...

Solis' largest three-phase, 1500 VDC PV string inverter has 12 MPPT (250, 300 and 350) or 16 independent MPPTs (350K) options that allow for great redundancy in larger systems.

Featuring smart string protection switch, the inverter can detect a short circuit or reverse connection, automatically turn off the switch to stop the corresponding MPPTs, and report the fault at the same ...

With advanced technology and reliable performance, our solar string inverters will maximize your PV system's efficiency, making it a cost-effective and sustainable choice for your home or business.

The new CPS 250 kW-600 V three-phase string inverters are designed for ground mount applications. The units are high performance, advanced, and reliable inverters designed specifically for the North ...

Sungrow SG250HX-V117, The 250kW three-phase Photovoltaic inverter consists of 12 MPPT and 24 inputs. Suitable for large PV systems.
