

50kWh Modular Energy Storage Unit for Office Buildings

All-in-one integrated system design inside the Cabinet to fulfill C& I scenarios.

It delivers reliable storage for peak load shaving, solar optimization, or backup support. Built for commercial use, the system is robust, space-efficient, and designed for seamless grid interaction.

Designed for real-world projects, StaX features a compact, modular design that fits easily into space-limited sites and enables fast stack-and-start installation without complex wiring.

It features a nominal energy capacity of 50kWh and a nominal voltage of 512V. It utilizes A+-grade lithium iron phosphate cells (3.2V, 100Ah), has a 15-year design life, and a cycle life of 26,000 cycles ...

Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands.

Namkoo's 30kW-50kWh energy storage system is fully customizable to match your unique commercial and industrial needs. It supports parallel connectivity for expanded capacity and enhanced grid ...

Discover the MEGATRON Series - 50 to 200kW Battery Energy Storage Systems (BESS) tailored for commercial and industrial applications. These systems are install-ready and cost-effective, offering ...

The BATTLINK 50kWh C& I Energy Storage System optimizes energy use for businesses by reducing costs, enhancing efficiency, and ensuring reliable power. With smart monitoring, modular scalability, ...

It offers a compact footprint, scalable capacity, and intelligent control, making it ideal for small factories, office buildings, retail stores, schools, and other commercial applications.

With enhanced power output in off-grid mode, it ensures reliable and uninterrupted energy supply even in challenging environments. Pre-wired for ease of use, the system allows for quick installation, ...
