

A brand new market for outdoor power supplies in Laos

Does Lao PDR supply electricity to neighbouring countries?

Thus, electricity generated in Lao PDR can be supplied domestically as well as exported to neighbouring countries. The power transmission system of Lao PDR is divided into two types of transmission lines - one for domestic supply and one for export, where power plants are directly connected to neighbouring countries.

What is the power sector in Lao PDR?

The power sector in Lao PDR is governed by MEM. The power system generators for domestic supply are the IPPs and EDL-Generation Public Company (EDL-Gen). The domestic transmission and distribution company (i.e. 115-kV and distribution lines) is EDL, and the domestic transmission company (i.e. 500-kV and 230-kV lines) is EDL-T.

What is the power transmission system in Lao PDR?

The power transmission system of Lao PDR is divided into two types of transmission lines - one for domestic supply and one for export, where power plants are directly connected to neighbouring countries. Each is not connected to the other within the borders of Lao PDR. The voltage classes are 500 kilovolts (kV), 230 kV, and 115 kV.

Who operates the 500 kV transmission system in Laos?

The 500-kV and 230-kV transmission systems for domestic supply are mostly operated by the Laos Transmission Company (EDL-T), and the 115-kV line by the Laos (EDL). Some sections are operated by other transmission operators.
