

Announcement on suspension of production of photovoltaic silicon panels

China has a near-monopoly over solar-grade polysilicon, producing 95% of the world's total in 2024, according to Bernreuter. China's share of the rest of the solar supply chain, including ...

REC Silicon is shutting a polysilicon plant in Moses Lake, Washington, that has struggled to achieve customers' quality requirements. The plant is one of only a few in the US that manufactures the solar ...

Leading polysilicon manufacturers in China, including Tongwei and Daqo, announce production cuts to address oversupply and stabilise prices, aiming to reduce financial losses and ...

China is threatening to shut down producers of polysilicon, a building block for solar panels, if they do not meet new energy standards, according to draft measures released on Tuesday ...

BEIJING (Reuters) -Chinese producers of polysilicon, a building block for solar panels, are in talks to create a 50 billion yuan (\$7 billion) fund to acquire and shut down roughly a third of...

China's leading polysilicon firms are reportedly considering shutting down one third of the country's polysilicon capacity and restructuring the sector, following years of overcapacity and...

REC Silicon announced it is ceasing production at its Moses Lake, Washington facility that produced polysilicon used in solar manufacturing. The reason given for the shutdown was the ...

China's largest producers of polysilicon for solar panels have signaled a turnaround in the industry's fortunes after steep losses over the past couple of years.

REC Silicon, a Norwegian polysilicon supplier, recently announced the cessation of production at its polysilicon plant in Moses Lake, Washington, USA. This move marks the complete ...

Tongwei Co., Ltd., Daquan Energy, and GCL-Poly Technology, the three major silicon material giants, simultaneously announced plans to cut production, involving a total capacity of more ...
