

Best fast charger for home

Which EV charger is best?

Specs Canadian EVSE manufacturer United Chargers offers a Wi-Fi-enabled Grizzl-E Smart EV charger, but for the money, the no-frills Grizzl-E Classic is the better value. (The simpler unit also avoids many of the software issues users have experienced with the Smart during its first few years of availability.)

What are the best EV charging options at home?

Here are CNET's picks for the best at-home options. You've bought an electric vehicle, maybe because of its lower emissions or maybe to save you money. Installing a Level 2 EV charger at home can unlock even greater convenience and, if it helps shift your charging away from public chargers, can boost your savings on fuel.

Is DC fast charging a good option for home use?

Pro Tip: While DC fast charging is faster, it's not practical for home use due to cost (up to \$1 million per mile of cable installation) and electrical requirements. Level 2 charging offers the fastest practical home charging solution.

What is the fastest EV charger in 2025?

The fastest home EV charger available in 2025 is the 80A Level 2 charger delivering 19.2kW of power. The Grizzl-E Ultimate represents the maximum charging speed possible for residential installations, providing 60-75 miles of range per hour of charging. Can I install a DC fast charger at home?
