

Canberra Uninterruptible Power Supply Vehicle BESS

Williamsdale BESS will deliver a key stage of the ACT Government's Big Canberra Battery ecosystem, helping the Territory reduce reliance on fossil fuels and achieve its 2045 net zero emissions target.

Connecting to the Evoenergy electricity distribution network, the Williamsdale BESS is part of the ACT Government's Big Canberra Battery project. It will have the capacity to store enough renewable ...

As part of the ACT Government's Big Canberra Battery project, it supports the transition to cleaner energy for households and reinforces the Government's commitment to achieving net zero emissions ...

The large-scale battery energy storage system (BESS) will provide at least 250 megawatts (MW) of power. This is enough energy to power one-third of Canberra for two hours ...

Located at Williamsdale in the south of Canberra, the battery will store enough renewable energy to power one-third of Canberra for two hours¹ during peak demand periods, increasing ...

What is Eku Energy's big Canberra battery project? With the capacity to store enough renewable energy to power one-third of Canberra for two hours during peak demand periods, the project is a ...

The Williamsdale BESS is a ground-breaking initiative and just one part of the ACT Government's Big Canberra Battery project which will see the delivery of an ecosystem of batteries ...

Explore the Williamsdale Battery Energy Storage System (BESS) project by Eku Energy, a 250MW/500MWh facility in Canberra. This project enhances energy security and reliability, storing ...

Battery energy storage developer Eku Energy has reached a financial close for 250MW/500MWh battery energy storage system (BESS) in Canberra, the Australian Capital Territory ...

Connecting to the Evoenergy electricity distribution network, the 250MW/500MWh Williamsdale BESS is part of the ACT Government's Big Canberra Battery project. It will have the capacity to store enough ...
