

Data Center User Cabinet 60kW

DPA 60 cabinet is 20-60kW with internal batteries. DPA 120 cabinet is 20-120kW with external battery cabinets.

Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands.

These deployable, seismic and UL-rated cabinets are fully welded, pre-assembled, and come standard with features such as recessed PDU Cavities, and are configurable with or without doors, sides and ...

The data center ups power 60kva can work with scalability in mind, allowing users to incrementally increase their power capacity as their data center grows, without the need for complete ...

A highly engineered data center cabinet solution that delivers fast, built-to-order configurability, best-in-class strength, and scalability regardless of the application.

The InfraStruXure PDU is designed to increase flexibility and agility of data center power distribution through a design that does not require a raised floor.

Designed to increase flexibility and agility of data center power distribution through a design that does not require a raised floor.

The APC InfraStruXure PDU is an industrial-grade, external power distribution cabinet engineered for demanding environments with a 60 kW capacity and 3-phase AC 208V input.

The Modulon DPH series UPS supports ultimate availability for data centers and factory facilities. The UPS supports high efficient operation modes and its modular and hot-swappable design makes ...

A space-saving, scalable and flexible device that's as easy to deploy as it is to manage; it's the perfect three-phase white or grey space solution for today's data center.
