

# Does Vietnam import photovoltaic panels

Are solar panels regulated in Vietnam?

Vietnam's solar panel trade is regulated under Decree 26/2023/ND-CP, which outlines the Schedule of Export Tariffs and Preferential Import Tariffs. This decree, effective from July 15, 2023, sets specific import duties on goods, including solar panels and related components.

Who makes solar panels in Vietnam?

Today, Vietnam hosts over 47 solar panel companies, including major international players like Longi Solar, JinkoSolar, and Canadian Solar, alongside emerging domestic manufacturers such as Bamboo Capital and Sao Mai Group.

Does Vietnam have a solar panel market?

Vietnamese solar panel production capacity has grown from 2.5 GW in 2019 to an impressive 18.7 GW by 2024, representing a 648% increase in just five years. This remarkable growth has positioned Vietnam as the fourth-largest solar panel exporter globally, capturing approximately 12% of the worldwide market share.

How much is the import tax on solar in Vietnam?

The preliminary import tax on Vietnamese solar imports has leaped from zero to 157.38% for Boviet Solar. After the revisions, the preliminary anti-subsidy and anti-dumping duty rates now combine to total 217.40% for Boviet Solar, 81.03% for JA Solar, 164.41% for Jinko Solar, 152.58% for Trina Solar and 363.84% for all others.

Vietnam, China, and India are the leading suppliers, accounting for 76% of Vietnam's total Photovoltaic Module imports. Vietnam tops the list with 60,510 shipments, which equates to a ...

A recent industry analysis by the International Renewable Energy Agency (IRENA) has identified Vietnam and India as the leading global centers for solar photovoltaic (PV) manufacturing ...

Today, Vietnam hosts over 47 solar panel companies, including major international players like Longi Solar, JinkoSolar, and Canadian Solar, alongside emerging domestic manufacturers such as ...

Vietnam's solar panel trade is regulated under Decree 26/2023/ND-CP, which outlines the Schedule of Export Tariffs and Preferential Import Tariffs. This decree, effective from July 15, ...

Vietnam's solar panel trade has been rising steadily--both in domestic manufacturing output and in export-import activity. In 2024, Vietnam's domestic market size reached approximately ...

Commerce applied the sharp increases to its preliminary anti-subsidy, or countervailing, tariffs announced on December 1 on solar imports from Vietnam, now the largest source of U.S. solar...

Vietnam imports of solar panel parts and components, by origin. Importantly, all solar panel exporters in

# Does Vietnam import photovoltaic panels

Vietnam - whether domestic or foreign-owned - use a similarly high share of ...

Explore Vietnam solar panel manufacturing landscape through detailed market analysis, production statistics, and industry insights. Comprehensive data on capacity, costs, and growth.

According to the US Department of Commerce, solar cell and panel imports will face varying countervailing duties -- as high as 3,403.9% for Cambodia, 799.5% for Thailand, 542.6% for ...

A drastic fall in photovoltaic panel imports due to tariff expansion in parallel with post-pandemic supply chain disruption and difficulties in global shipping has left the US deficit in solar cell supply, which ...
