

Electricity bills Italy

How much does a power bill cost in Italy?

Additional note: Italian power bills also include the Canone RAI (the national TV license fee) for households - EUR90 per year - charged in installments on electricity bills. This is not related to electricity supply but is a government fee using the power bill as a collection mechanism.

What is the energy bill in Italy?

In Italy, the energy component is often the largest portion of the bill - typically ranging from about 50% up to 65% of the total, depending on market prices. When wholesale prices are high (as seen during 2022's energy crisis), this portion can climb to two-thirds of the bill, whereas in more stable times it may be around half.

What is the average Italian electricity bill in 2025?

In summary, the average breakdown of an Italian electricity bill in 2025 might be roughly: about 55-60% for energy supply, 15-20% for network costs, 15-20% for system charges, and around 10% for taxes.
