

European Outdoor Energy Storage Cabinet

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

Europe's shift to renewable energy makes outdoor storage cabinets indispensable. With strict standards and diverse needs, the market favors reliable, innovative solutions--an area where ...

IP55 rated, wide temperature range, supports parallel expansion up to 76.8kWh, built-in fire protection, and remote monitoring. Perfect for hospitals, schools, agriculture, and commercial use.

Premium European outdoor cabinet and energy storage solutions. Featuring high IP protection, robust thermal management, and secure power systems for harsh environmental conditions.

The MPINarada NESP Series LFP High Capacity Lithium Iron Phosphate batteries are designed for a broad range of BESS solutions providing a wide operating temperature range, while delivering ...

The cabinet is designed for wide-temperature range operations (-20°C to +60°C), with built-in thermal management, anti-corrosion materials, and high-altitude suitability.

Our outdoor cabinets with single doors are ideal for compact battery systems. The installation of a filter fan allows waste heat to be dissipated via the double-walled construction.

DC1000V and DC1500V Systems, integrated with PCS, equipped with Intelligent Cloud platform, real-time Monitoring System Operation Status and Benefits.

Outdoor cabinet products use high-performance LFP cell, cycle life up to 8000 times. Products adopt an active balance solution, built-in cloud equipment, support remote maintenance and monitoring, and ...

Its modular cabinet--IP54-rated and optimized for heat dissipation with liquid and air cooling--ensures consistent performance in a wide temperature range and high-altitude conditions.
