

# Huawei Energy Storage Battery Cooling Solution

Overview Huawei's LUNA2000-215kWh is a next-generation C& I (Commercial & Industrial) hybrid cooling energy storage solution, combining liquid and natural air cooling to maintain maximum ...

Maximize your energy potential with advanced battery energy storage systems. Elevate operational efficiency, reduce expenses, and amplify savings. Streamline your energy management ...

With its high storage capacity, innovative hybrid cooling and versatile application options, this energy storage system sets new standards in the field of commercial and industrial energy ...

Featuring hybrid cooling technology and advanced safety mechanisms, it is the ideal solution for commercial and industrial applications. The Huawei LUNA2000 ESS series is a powerful and ...

In this video, we showcase the Huawei FusionSolar LUNA2000-200 kWh and the new FusionSolar LUNA2000-215 kWh model featuring advanced liquid cooling technology, which significantly ...

With hybrid cooling technology, the storage unit is suited to industrial and commercial applications, ensuring the Luna system remains stable even in demanding conditions and helping ...

Supplier News 17.02.2026 - Huawei Smart String ESS 2.0: C& I battery storage with innovative hybrid cooling The EWS commercial storage portfolio continues to grow: we are pleased to introduce the ...

Huawei Digital Power has launched the FusionSolar C& I LUNA2000-215-2S10 Energy Storage System, designed to meet the dynamic demands of the commercial and industrial (C& I) ...

The Huawei LUNA2000- (107-215) system is the ideal solution for commercial and industrial installations that require high-capacity energy storage, scalability and maximum safety.
