

Is it a crime to damage photovoltaic panels

Are criminals looking at solar panels?

And alongside machinery, recent figures from the UK police suggest criminals have set their sights on another lucrative opportunity - solar panels. Solar is currently only a small part of the UK's energy mix, but its share is growing, with estimates from Solar Energy UK suggesting the total solar capacity stands at 15 GW.

Is solar project theft a crime?

Indeed, he confirms that most solar project theft is committed by organised crime groups, notably in the UK and the Netherlands where DeterTech has experience working with clients.

Does the UK have a solar crime rate?

And the UK experience is far from unique. German solar security business Viamon tells pv magazine that more than 5,000 "major" solar thefts annually occur in Europe, with more than 400 in Germany alone. In southern Italy, says Viamon Managing Director Oliver Strecke, the solar crime rate is 10 times higher than the European average.

Are solar panels stolen?

By way of example, in August, solar panels worth approximately £10 500 were stolen from an energy farm in Northamptonshire. Solar panel theft is not limited to large scale and commercial solar farms either - homes in remote areas are also vulnerable, with thieves reportedly swiping panels from people's roofs. Why?
