

Kyiv's new energy storage company

What is Ukraine's largest battery-based energy storage system?

DTEK Group, in partnership with American company Fluence, has officially connected Ukraine's largest battery-based energy storage system to the grid. With a total capacity of 200 MW and the ability to store 400 MWh of electricity, the project is a milestone in Ukraine's energy resilience.

How many energy storage plants are there in Ukraine?

The six energy storage plants will be located at multiple sites across Ukraine, with capacities ranging from 20 MW to 50 MW and a total capacity of 200 MW. Together, they will store up to 400 MWh of electricity - enough to supply two hours of power to 600,000 homes (equivalent to roughly half the households in Kyiv).

Will a new battery storage facility strengthen Ukraine's grid?

Sept. 10, 2025. (Bohdan Nazarenko/DTEK) Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected Russian attacks this winter, the company said.
