

Will the global solar PV market remain strong in 2026?

The fundamentals of the global solar PV market will remain strong in 2026 despite the challenges the sector faced in 2025, according to new analysis from Wood Mackenzie. Indian rooftop solar provider Fujiyama Power has announced plans to commission its 1GW solar cell manufacturing plant in Dadri, Uttar Pradesh.

What is the IEA PVPS trends in photovoltaic applications 2025 report?

The IEA PVPS Trends in Photovoltaic Applications 2025 report provides comprehensive data and analysis on global PV deployment, technology, and market evolution from 1992 to 2024. It supports policymakers, utilities, and industry stakeholders in understanding key market drivers and future developments.

Why is the global PV build forecast up 1% quarter-on-quarter?

The global PV build forecast is up 1% quarter-on-quarter, largely due to developments in India and Pakistan, with installations slower than previously expected in Japan and South Africa. Most of the established solar markets continue to build steadily. Polysilicon prices have fallen to \$4.7/kg.

How big is solar PV in 2024?

IEA PVPS has released its latest Trends in Photovoltaic Applications 2025 report, revealing that the world's cumulative installed PV capacity surpassed 2 260 GW by the end of 2024, marking a 29% year-on-year increase. According to the report, 2024 was another record year for solar PV, with between 553 GW and 601 GW newly installed worldwide.

News from the photovoltaic and storage industry: market trends, technological advancements, expert commentary, and more.

Solar Magazine--a solar PV magazine comprised of aspects of the solar energy industry including news, developments and in-depth insights.

The IEA PVPS Trends in Photovoltaic Applications 2025 report provides comprehensive data and analysis on global PV deployment, technology, and market evolution from 1992 to 2024.

Latest news on the solar energy and photovoltaics industry in the USA: installations, manufacturing, markets & policy, and technology.

3. Market segment outlooks 3.1. Residential PV 1,088 MWdc installed in Q3 2025 Down 4% from Q3 2024 Down 4% from Q2 2025 The OBBBA tax credit rush has not yet translated to ...

The number one source for in-depth and up-to-the-minute news, technical articles, blogs and reviews on the international solar PV supply chain.
