

Leading enterprise of tracking photovoltaic bracket

What is the market size for photovoltaic tracking systems in China?

Taking the bracket market in the Chinese market for photovoltaic tracking systems as an example, the market size will increase from about 21 billion yuan in 2023 to about 25.3 billion yuan in 2024, and the Chinese market size will continue to grow in 2025.

What is a solar tracker?

1. What is a Solar PV Tracker? A solar tracker is a device that positions a reflector, PV panel (photovoltaic panel)/solar panel, or a solar collector at an optimal angle relative to the sun to receive most of the solar radiation.

Is NextTracker the world's largest solar tracker company?

NextTracker has been the world's largest solar tracker company in terms of market share for several consecutive years. As of 2024, it has provided smart solar trackers for over 35 gigawatts of solar projects across five continents, including some of the world's largest solar farms with a global market share of over 30%.

Are solar trackers a good investment?

Solar energy is an abundant and clean renewable energy source. As solar PV power generation continues to grow, solar businesses, developers, and investors are relying on solar PV (photovoltaic) trackers or solar trackers more than ever to generate electrical energy and maximize solar projects' ROI under cost pressure.

The global PV tracking bracket market maintains robust growth momentum, with 2025 witnessing remarkable performance driven by low-carbon energy transition policies, technological ...

PV TRACKING BRACKET MARKET REPORT OVERVIEW The global PV Tracking Bracket Market size was valued at USD 40.14 Billion in 2024 and is projected to reach USD 44.68 ...

During the conference, PVBL announced its annual ranking of the top 15 global PV tracker brands. In 2024, the global photovoltaic tracking market experienced significant growth, fuelled by ...

The adoption of photovoltaic (PV) tracking brackets in utility-scale solar projects is driven by a blend of performance, cost, technology, policy, and land-use dynamics. Primary among them is ...

This article will introduce the top 10 PV tracking system brands in the world in 2025 and provide some latest information about them for your reference.

Here are the top 10 global solar PV tracker companies (based on capacity installed): 2.1. NextTracker
NextTracker is the leading solar tracker company trusted globally for one of the most ...

It is a world-leading manufacturer and solution provider of photovoltaic tracking brackets, fixed brackets and BIPV systems. It successfully landed on the China A-share Science and ...

Leading enterprise of tracking photovoltaic bracket

global Photovoltaic Tracking Bracket Market size was valued at approximately USD 4.7 billion in 2024 and is expected to reach USD 14.69 billion by 2033, growing at a CAGR of about 13.5%.

Solar PV tracker companies provide a broad range of solar PV trackers, including single-axis and dual-axis trackers for residential, commercial, and industrial applications. A solar PV tracker takes solar ...

During the conference, PVBL announced its annual ranking of the top 15 global PV tracker brands. In 2024, the global photovoltaic tracking market ...

Market saturation, competition, and commoditization of PV tracking technology, leading to price pressures, margin erosion, and consolidation among manufacturers and suppliers in the ...
