

Longi Photovoltaic is not doing solar power generation

What does Longi Green Energy expect from the global photovoltaic industry?

LONGi Green Energy will continue to carry out product technology innovation and intelligent manufacturing upgrades, and firmly look forward to the long-term positive trend of the global photovoltaic industry," the person said.

Why did Longi delay the start of a 15-gigawatt solar module factory?

(Bloomberg) -- Longi Green Energy Technology Co. delayed the start of a 15-gigawatt solar module factory in eastern China by 18 months as the sector faces overcapacity and a fierce price war. The project in the city of Wuhu in Anhui province is now expected to be operational in June 2026, the company said in a filing on Tuesday.

Will Longi Green Energy shut down production in Southeast Asia?

LONGi Green Energy headquarters in Shaanxi, China. Image: LONGi Green Energy Chinese solar manufacturing giant LONGi Green Energy has addressed rumours it is planning to shut down production at its facilities in Southeast Asia in response to US import tariffs coming into force.

Will '516 photovoltaic New Deal' affect Longi Green Energy?

LONGi Green Energy decided to shut down the module factories in the above areas, which may be affected by the U.S. "516 Photovoltaic New Deal";.

Back Contact (BC) Solar Technology Development White Paper At the key node of intergenerational transition of global Photovoltaic (PV) technology, the back contact (BC) cell ...

The whole industry has suffered losses in stages, and photovoltaic giants have slowed down the process of expanding production. On December 10, LONGi Green Energy (601012. SH) ...

(Yicai) June 5 -- Longi Green Energy Technology said the Chinese solar panel giant has not closed its plants in Malaysia and Vietnam nor halted operations at the factories, as rumored, but has modified ...

In the 2024 interim report, the leading photovoltaic company LONGi Green Energy (601012. SH) with a loss of 5.243 billion yuan, has become a major loss-maker in the A-share ...

LONGi has long prioritized addressing its customers' primary concern--reducing the cost of PV power generation--and has implemented significant innovations to achieve this goal. However, ...

Chinese solar manufacturing giant LONGi has addressed rumours it is planning to shut down production at its facilities in Southeast Asia.

TaiyangNews: LONGi was among the first Chinese PV manufacturers to commit to RE100 and has looked into ESG very early. What motivated LONGi to lead in this space early on, ...

Longi Photovoltaic is not doing solar power generation

Vertically Integrated Solar PV Value Chain LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the ...
