

Longi Solar Double Glass PV Panel

Large-format modules with M10 wafer size use dual-glass and frame packaging to ensure module strength.

LONGi's LR7-72HVDF 640-665M is an anti-dust PV module with 24.6% max efficiency, HPBC 2.0 cells, and a 30-year warranty, ideal for industrial/commercial steel roofs.

We deliver the world's most complete and cost-effective solar PV solutions. Our in-house engineering and product development ensure that every solar PV system manufactured complies with ...

This bifacial solar panel series is ideal for commercial, industrial, and utility-scale solar projects, offering a combination of high efficiency, cost savings, and long-term reliability.

Vertically Integrated Solar PV Value Chain LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy ...

The glass-glass modules with bifacial technology from LONGi Solar combine high energy yields with a robust design - ideal for PV projects with high demands on service life, stability and yield optimization.

Double Glass Durability - increased durability, weather-resistances, UV resistant and withstand high temperatures and strong wind loads. Longer Life Span - high durability increases overall life span.

Type Half Cell, Bifacial, Double-glass, N-TYPE, TOPCON Panel Efficiency 23.1% Place of Origin Anhui, China Panel Dimensions 2382*1134*30mm (93.78*44.65*1.18in) Brand Name Longi Product name ...

The Longi 620W Bifacial Double Glass Solar Panel is a high-performance photovoltaic module designed for utility-scale, commercial, and industrial solar installations.

Beyond standard offerings, we excel in providing customized photovoltaic solutions tailored to specific project requirements. This includes specialized products like Building Integrated Photovoltaics ...
