

Make a locker that can be opened

If you need a DIY Entryway Locker with Storage, check out these free plans. The locker has a bottom sliding drawer and two upper cubby compartments.

Step 1 - Cut Backboard and Side Pieces For The Locker
Step 2 - Cut All Pieces For The Base of The Locker
Step 3 - Assemble The Base
Step 4 - Attach Side Pieces to The Base of The Locker
Step 5 - Drill Pocket Holes and Attach The Back Piece
Step 6 - Install Drawer Slides
Step 7 - Measure and Cut Middle The Seating Board
Step 8 - Mark The Elevation of The Seating Board and Attach
Step 9 - Cut Pieces For The Drawer Box
Step 10 - Assemble The Pieces For The Drawer Box

Since this locker has three major pieces, (one backboard and two sideboards) we need to cut these large items first. Measure and draw, on 1/2" plywood, the shape of the side pieces per dimension from the cut list. Then using a Skill Saw cut these side pieces first. Then, take the second 1/2" plywood piece and draw a measurement...
