

Moroni plug-in electric vehicles phev

What is a plug-in hybrid electric vehicle (PHEV)?

Plug-in Hybrid Electric Vehicles (PHEVs) combine the efficiency of electric motors with the range and flexibility of traditional engines. In this blog post, we'll take a closer look at the 8 best PHEVs from China that are making waves in 2024.

Are PHEVs cheaper than EVs?

PHEVs can be a great solution for someone who has access to cheap charging at home and very rarely drives more than 30 miles every day. A plug-in hybrid is also usually cheaper than an all-electric vehicle, but bear in mind that it's more complicated than an EV. Do plug-in hybrids get the \$7,500 tax credit?

Are PHEVs better than self-charging hybrids?

However, where self-charging hybrids top the battery up using energy recovered through braking, plug-in hybrids can be topped up using external power. One advantage is the fact that PHEVs tend to have bigger batteries than other hybrids, so you get a long range - over 70 miles in some cases.

Is Niro a hybrid or a PHEV?

The Niro lineup is made up entirely of electrified options, with the choice of a hybrid, an EV, or a plug-in hybrid. The PHEV may seem like a compromise between the two, but it's arguably the most enticing version in the lineup.

Best PHEVs of 2026: our favourite plug-in hybrids for low cost motoring with no range anxiety Electric cars may be the future of motoring - but they're not for everyone. The best plug-in hybrid electric ...
