

New Energy Liquid Cooling Energy Storage Battery Cabinet Communication Power Supply

CHAM has been focus on new energy core technology for 20 years, providing customized products and services to customers with its professional pre-sales and R& D teams.

The "all-in-one" design integrates batteries, BMS, liquid cooling system, heat management system, fire protection system, and modular PCS into a safe, ...

Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS ...

In the rapidly evolving landscape of energy storage, the efficiency and longevity of battery systems are paramount. A critical component ensuring optimal performance, especially in high-demand ...

Friendly & Flexible Battery cabinet and power cabinet. Modular design, highly integrated. Standardized design, easy to expand and maintain. Support parallel installation. Fast deployment and quick setup ...

AceOn's eFlex 836kWh Liquid-Cooling ESS offers a breakthrough in cost efficiency. Thanks to its high energy density design, eFlex maximizes the energy stored ...

With fully self-developed PCS, iEMS, and BMS, the system enables battery cluster-level management and liquid cooling balanced heat dissipation ...

Engineered with Grade A LiFePO4 cells, multi-level protection, and AI-powered monitoring, our liquid-cooling storage cabinet delivers safe, efficient, and ...

The system integrates batteries, power conversion systems (PCS), liquid cooling systems, BMS management, and EMS energy management systems into one unit, featuring high energy ...
