

# Open a solar battery cabinet lithium battery pack factory

Start with a narrow putty knife or scraper and hammer it into the seam, once it starts to go in lift handle and continue to hit it in as it goes down. ...

In this tutorial, you will learn how to build an amazing battery box for a DIY lithium battery. The battery box features aluminum, high-impact rubber, and a plexiglass viewing window.

Move the battery cabinet as close as possible to the final location with a pallet truck or a forklift before unpacking. Remove the packaging (cardboard, plastic, and foam corners). Open the front door, lift it ...
