An inverter is essentially the "brain" of any solar power system. Inverters convert the DC electricity produced by a system's solar panels into grid- and appliance-compatible AC electricity. Inverters tend to have shorter lifetimes and warranties than solar panels-5 to 10 years as opposed to 25 or 30-and also tend to be the most expensive part of a...See more on solarchoice

Power one aurora solar inverter

The Power-One Aurora PVI-4.2-TL-OUTD is a high-efficiency, grid-connected single-phase solar inverter designed for residential and small commercial photovoltaic systems.

ABB / Power One Aurora solar inverters are quality solar inverters with a 5 year warranty on the single phase units and a 10 year warranty as standard for the larger three phase Trio models.

We don't make Aurora inverters, the manufacturer is ABB/Power-One. If you need support or warranty please call their tech-support number: 1-877-261-1374. These inverters were designed by a few ...

The Aurora inverter feeds a power grid by using the power generated from photovoltaic panels. The photovoltaic panels transform sun-radiated energy into electrical energy in the form of direct current ...
