

Solar Photovoltaic Power Generation Association

The year 2024 was a true landmark year for solar power. Global solar installations reached nearly 600 GW - an impressive 33% increase over the previous year - setting yet another ...

SEIA embodies the innovation and entrepreneurship that defines solar energy. Join SEIA today to make a difference in the future of clean energy.

Solar energy in the United States is booming. Along with our partners at Wood Mackenzie Power & Renewables, SEIA tracks trends and trajectories in the solar industry that demonstrate the diverse ...

Power generation from solar PV increased by a record 320 TWh in 2023, up by 25% on 2022. Solar PV accounted for 5.4% of total global electricity generation, and it remains the third largest renewable ...

Founded in 1974 -- and celebrating its 50th anniversary this week -- SEIA is a US-based association dedicated to advancing solar energy representing companies across the solar supply ...

While our commercial and community solar outlooks have risen slightly due to enhanced project pipeline visibility, we've downgraded our residential outlook as tight module availability is ...

Here is a directory of some of the national, international, state, and local solar energy trade associations and organizations working towards sustainability.

The China PV Industry Development Roadmap (2024-2025) covers various aspects of the photovoltaic (PV) industry chain, including 76 key indicators such as polysilicon, PV cells and ...
