

Testing of LONGi photovoltaic panels

We follow three testing sample selection methods: 1: Sample randomly selected by CEA from a large production lot 2: Sample purchased from the market by CEA 3: Sample provided by supplier, without...

LONGi Solar Panels FAQ Are LONGi solar panels good? LONGi is a mid-range-tier solar panel manufacturer headquartered in China, rated 4.3/5 by industry experts. Their panels offer up to 22.8% ...

Chinese module maker Longi has released the results of a six-month test of its back-contact solar modules deployed in an offshore deep-sea experimental installation.

Conducted at the Sanmen mudflat PV test base between February and April 2025, the study compared LONGi's Hi-MO 9, built on HPBC 2.0 technology, with mainstream TOPCon modules.

LONGi's Hi-MO series products have once again been ranked as first class in energy yield performance testing carried out by pv magazine. The company has now achieved this ranking ...

The testing was performed on new panels supplied by LONGi Solar Australia Pty Ltd. total of 6 individual panels were tested. The following tests were carried out:

The testing platform was upgraded in 2021 and, since the end of that year, monthly energy yield data for modules has been released, with three of LONGi's PERC products participating in tests.

San Ramon, CA - LONGi Solar has been named the Overall Highest Achiever in the 2025 PV Module Index (PVMI) Report by the Renewable Energy Test Center (RETC), a leading engineering and ...

Our review of LONGi solar panels finds that the brand is a practical and economical choice for those interested in solar energy, offering competitive prices and high efficiency ratings.

Recently, the internationally authoritative testing and certification body RETC released its 2025 PV Module Index Report. LONGi was honored with the "Overall Highest Achiever" award for the...
