

# Timor-Leste Communications 5G base station opened

Does Timor-Leste have 5G?

Similarly, 5G mobile networks are being rolled out or are already in use in countries like Indonesia, Thailand, and Philippines, whereas Timor-Leste has not yet launched 5G (and likely will focus on maximizing 4G utilization first).

How many telecom operators are there in Timor-Leste?

Timor-Leste has three main telecom operators: Timor Telecom (TT), Telkomcel, and Telemor, which until recently enjoyed a triopoly in the market.

What is a Timor Internet service provider (ISP)?

For most Timorese, the "ISPs" are essentially the mobile network operators themselves - Timor Telecom, Telkomcel, and Telemor - as they provide the bulk of internet access through cellular data plans.

Will a 5G hotspot be available in Dili?

Viettel/Telemor, for instance, has experience deploying 5G in Vietnam and could pilot 5G hotspots in Dili in a few years. In the meantime, we can expect better 4G LTE coverage to more villages and perhaps the introduction of fixed-wireless broadband offerings (home routers using 4G/5G signals) as a substitute for wired lines.

On August 21, in the capital city of Dili, during the celebration of 13 years of business in Timor-Leste, Viettel under the brand name Telemor officially launched 5G service in this country.

These data can be visualized by applying filters by technology (no coverage, 2G, 3G, 4G, 4G+, 5G) over a configurable period (only the last 2 months for example). It's a great tool to track the deployment of ...

The network consists of 85 base stations situated in hospitals and health centres throughout the country and mobile HF communications installed in 11 ambulances.
