

Vietnam Data Center Rack 50kWh Tender

How big is Vietnam's data center market?

A recent report by Statista, a global business intelligence platform, shows that Vietnam's data center market revenue is projected to reach approximately \$2.2 billion in 2025. The market is forecast to grow at an annual rate of approximately 3.7% from 2025 to 2029, and reach roughly \$2.6 billion by 2029.

When will Viettel build a data center in Vietnam?

Vietnam's Ministry of Public Security plans to build its National Data Center 2 from 2026-2028 and National Data Center 3 from 2028-2030. Viettel started building its Tan Phu Trung 140-MW hyperscale data center with a design capacity of 10,000 racks in Ho Chi Minh City in April 2025, with expected full completion by 2030.

Will data storage requirements increase demand in Vietnam?

In addition, local data storage requirements set by Vietnam's Personal Data Protection Law, which was ratified by its National Assembly in June 2025 and will take effect in January 2026, are expected to increase demand for data storage services provided by data center operators.

Is Vietnam a good place to invest in data centers?

Regulatory reforms allowing 100% foreign ownership of data centers, combined with new domestic data storage requirements, make Vietnam one of the most attractive emerging markets in Asia for U.S. firms seeking entry or expansion.

Viettel IDC in May 2025 started construction on a hyperscale data center with a power capacity of 140MW in Ho Chi Minh City. Scheduled completion for this project is 2030.
